SUMMARY

Innovative and research-oriented Computer Science undergraduate at VIT Chennai with a strong foundation in AI, machine learning, and systems programming. Experienced in developing intelligent platforms and kernel-level AI schedulers, integrating LLMs, TensorFlow, and ONNX Runtime. Published author in medical AI research (ImageCLEF 2025) and lead developer of multiple full-stack and AI-driven projects. Passionate about creating scalable, data-driven solutions that bridge research and real-world applications.

PROJECTS

GMAIL Bait Mail

[Link to Demo](#)

Developed a Chrome extension with a Python (Flask) backend to monitor Gmail DOM changes, detect phishing or scam emails, and auto-generate intelligent replies using GenAI LLMs on AWS Bedrock. The project integrates Gmail API, boto3, and MutationObserver for real-time email security and automation.

AI-Based Process Scheduler

[Link to Demo](#)

Led development of an AI-powered process scheduler that efficiently manages CPU-bound and I/O-bound tasks through a multi-queue architecture. Integrated Reinforcement Learning with the Linux kernel (C) using ONNX Runtime and TensorFlow to dynamically optimize scheduling decisions.

WellnessConnect

[Link to Demo](#)

Built WellnessConnect, a mental health platform featuring an AI-powered chatbot, anonymous confessions, and peer-to-peer support to promote emotional well-being. Implemented using React, Firebase, TensorFlow, and GPT-4, the platform provides a safe and interactive space for users to connect and share.

EDUCATION

2023 - 2027	Bachelor's Degree at VIT, Chennai	(GPA: 9.00)
2022 - 2023	Class 12th CBSE	(95.5%)
2020 - 2021	Class 10th CBSE	(91%)

PUBLICATIONS

Sahni, Aryan et al. (2025). "Evaluating deep CNNs for multi-label concept detection in ROCov2 radiology image dataset by team LekshmiscopeVIT". In: *CLEF2025 Working Notes, CEUR Workshop Proceedings, CEUR-WS. org, Madrid, Spain*. URL: https://ceur-ws.org/Vol-4038/paper_203.pdf.

SKILLS

Technical	Python (Advanced) Java (Intermediate) C++ (Intermediate) C (Intermediate) SQL (Intermediate) Git/GitHub Linux (Intermediate).
Frameworks and Libraries	Pandas, NumPy (Advanced) TensorFlow (Intermediate) Lang Chain (Intermediate) Scikit-learn ONNX Runtime
Language	German (Beginner) Indian sign language (beginner) French (beginner) English(Proficient) Hindi(Proficient).
